

# 16th International Congress of the World Federation of Occupational Therapists

in collaboration with the **48th Japanese  
Occupational Therapy Congress and Expo**

*Sharing Traditions, Creating Futures*

**June 18 - 21, 2014  
Yokohama, Japan**

## Exploring the Wisdom of OT from Asia to the World

The theme of the Congress 2014 'Sharing Traditions, Creating Futures' will inspire thoughtful stimulating discussion, to share global perspectives and to debate the exciting future prospects of the occupational therapy profession. The universe of occupational therapy has common values but they are enacted through many approaches, which reinforce the richness of the profession's diversity.

This Congress will encourage us all to reach outside of our own spheres of practice to examine what is driving the future of healthcare internationally and how occupational therapists must take their rightful place within this vision of the future. At the same time, delegates can learn about the Asian nations and make this a congress at which participants can experience Asia's amazing culture.
