

## **WFOT – Occupational Therapy Towards 2030**

This is a plenary session providing delegates with up to date information on recent and agreed WFOT strategies and projects which are clearly aligned with global health policy which drives occupational therapy practice at a national and local level. The WFOT Executive Management Team and Programme Coordinators will be there and keen to engage with you – you may have seen their faces on the WFOT website ([www.wfot.org](http://www.wfot.org)) and in our social media now you can meet them in person.

Be inspired as they talk about the achievements of WFOT, particularly the outcomes of the many international projects and project teams that support the work of the organisation. These teams are all volunteers, and when you hear about their activities, you may be inspired to volunteer to make your contribution too. Celebrate with WFOT as we announce Award winners. This exciting occasion gives us the opportunity to congratulate colleagues who receive WFOT Awards in recognition of the significant contribution that they have made to the organisation and the profession.

Join us as we to discuss WFOT's plans for taking occupational therapy towards 2030.
