Presentation on my journey over the past 15 years: how I rebuilt myself from the moment (2006) when I woke up in my hospital bed—with both legs and my right arm amputated—to the person I am today: a woman who is fulfilled in her career as a painter, in her family life, who has overcome her disability to benefit from a thought-controlled prosthetic arm since 2020, and who is trying to push the boundaries of the meaning that can be given to one's life when one chooses.
