

PRESENTER	TITLE	THEME
Lori Reynolds	Results Of An Innovative Community-Based Care Coordination Program to Address Unmet Caregiver Needs	Ageing
Julieta Camino	A novel observation scale on the assistance given by carers of people with dementia during the performance of daily tasks.	Ageing
Kátia Omura	Cognitive profile of elderly people diagnosed with Alzheimer's disease in a region of the Brazilian Amazon	Ageing
I-Ching Chuang	Potential predictors of cognitive function and daily function improvements after sequential training for community-based elderly with cognitive decline	Ageing
Sajay Arthanat	Home automation technology to support caregiving of individuals with Alzheimer's disease: A case series	Ageing
Nancy Clark	The times they are a changing!	Ageing
Satoshi Hayashi	Facial expression recognition in mild cognitive impairment and dementia	Ageing
Emily Balog	Facilitating aging in place and community by empowering participation in society: A mixed methods study on the co-development of a theory of change with suburban-dwelling older adults	Ageing
Lisa Knecht-Sabres	The effects of virtually based life review sessions as an intervention to increase self-perceived quality of life and personal meaning of community-dwelling older adults during the COVID-19 pandemic.	Ageing
Fiona Maclean	The Four 'I's': An approach to R-Evolutionise how we talk about drinking alcohol in later life.	Ageing
Melanie Mariani	The Older Adult & Sex Education: Promoting Safe, Comfortable Sex	Ageing
Rebecca Estes	A mixed methods study of attributes of older adults aging in place	Ageing
Christine Berg	Summer camp for older adults: combatting social isolation virtually	Ageing
Michal Hochhauser	Enhancing digital health literacy in the elderly population: Pathways to COVID-19 resilience	Ageing
Pamela Toto	Clinical utility of the Late Life Function and Disability Instrument (LLFDI) in occupational therapy for older adults	Ageing
Špela Mihevc	Care home staff experiences with the use of the Montessori Method with older people and people with dementia	Ageing
Ruth Usher	Assessing Older Adults' Decision-Making Capacity for Independent Living: Challenges and Opportunities for Occupational Therapy	Ageing
Maaïke Van Assche	The perspectives of older adults with MCI and their caregivers on the use of socially assistive robots in healthcare: exploring factors that influence attitude in a pre-implementation stage	Ageing

Maaïke Van Assche	Developing a socially assistive robot that matches the needs and expectations of older adults with MCI and their caregivers – a pilot trial	Ageing
Ross Parry	Understanding the emergence of walking problems in daily life situations as experiential and perceptuomotor coupling between the person and the environment: An ecological study of people with Parkinson's disease	Ageing
Michaela Gleeson	The experiences of loneliness for community-dwelling older adults: A qualitative evidence synthesis	Ageing
Debbie Boey	The impact of low vision on activities, participation, and goals among older adults: a scoping review	Ageing
Masafumi Kunishige	Older drivers with larger driving smoothness when changing lanes also have lower spatial mobility.	Ageing
Jennifer Stadden	What are the cognitive assessment practices undertaken by Occupational Therapists in the acute stroke setting for individuals with severe cognitive impairment?	Ageing
Jayachandran Vetrayan	Arabic Version of Prospective and Retrospective Memory Questionnaire (PRMQ-A): A Reliability Study	Ageing
Aiko Imai	The Interrelationship between participation in meaningful activities and physical activity: A three-year longitudinal study of healthy older adults	Ageing
Hitoshi Mutai	Relationship between IADL and post-stroke depression and fatigue in community-dwelling stroke survivors	Ageing
Tomohiko Yoneyama	Differences in Response during Activities in Patients with Dementia -Analysis of Comparison among Three Groups Classified by Severity	Ageing
Christel Seeberger	CarFit: An American-Canadian Collaboration Adapts to Support Aging in Place for Older Drivers During and After COVID-19	Ageing
Yukako Asano	The transportation usage affects health related quality of life (HRQOL) of Japanese elderly who required nursing care services in rural and urban areas?	Ageing
Tomoaki Asano	Effectiveness of Life Storybook Intervention on Apathy and Verbal Fluency in Persons with Dementia.	Ageing
Takayuki Tabira	Effects of ADL intervention based on Process Analysis of Daily Activity for Dementia in community-dwelling patients with Alzheimer's disease: A non-randomized controlled trial	Ageing
Orla Dolan	A pilot mixed methods study to evaluate the outcomes of virtual Cognitive Stimulation Therapy in Ireland	Ageing

Yael Zilbershlag	A unique discharge Cognitive-Functional Evaluation for hospitalized older people (COFEE - HD)	Ageing
Kate Laver	Implementing an Evidence-based Reablement Intervention in health and aged care services in Australia: A research translation study	Ageing
Gain Shin	Development of themes and items about self-management for elderly people with chronic disease: A Delphi survey of occupational therapists	Ageing
Louise Nielsen	Can strengthening older adults' problem-solving skills improve their occupations and maintain their life roles? A systematic review and meta-analysis	Ageing
Tove Nielsen	Adaption of the Cognitive Orientation to daily Occupational Performance (CO-OP) to Danish practice among older people with stroke	Ageing
Kenji Yabuwaki	Characteristics of role performance, instrumental ADL, and physical activity of community-living older adults with dementia: Comparison with mild cognitive impairment and normal condition	Ageing
Yosuke Suzuki	Transitional characteristics of occupational experiences among working-age adults in Japan on becoming a caregiver for their parents.	Ageing
Maya Arieli	Predictors of participation after hospitalization due to acute medical illness in older adults	Ageing
Erika Johansson	A knowledge-based framework on important features for practice, patient attitudes and preferences about how to reduce and prevent loneliness among older adults.	Ageing
Anna Brorsson	Travelling with public transportation when living with dementia	Ageing
Beatriz Sarmiento	Health literacy of informal caregivers on dementia	Ageing
Anna Do	Race, ethnicity, depression, and low vision: Implications for occupational therapy	Ageing
Chang Dae Lee	Subjective memory as a predictor of social participation in older adults: A fixed-effects regression analysis	Ageing
Chang Dae Lee	Association of subjective memory with memory decline and IADL limitation in older adults: A fixed-effects regression analysis	Ageing
Sally Day	The Falls after Stroke trial (FAST) a novel intervention of home safety, community mobility and the life-integrated functional exercise (LiFE) program: exploring participant experiences.	Ageing
Patricia Cifuentes Cortés	Evidence of Occupational Therapy Intervention in Elderly in Community Context	Ageing
Jacki Liddle	Promoting continued engagement after driving cessation: An overview of 20 years of the CarFreeMe program of research	Ageing

Mayu Hase	Characteristics of community-dwelling elderly who actively engage in health promotion during the coronavirus (COVID-19) pandemic	Ageing
Aifah Jamaludin	Malaysians' view on road safety requirements for older drivers	Ageing
Sally Bennett	Implementing evidence-based, non-pharmacological interventions addressing behaviour and psychological symptoms of dementia: a systematic review focused on implementation strategies	Ageing
Yael Zilbershlag	The role of sensory processing and subsequent risk of falls on participation in daily activities among older adults.	Ageing
Harshal Dixit	Effect of Co-ordination training and Tai chi qigong on cognition and activities of daily living in elderly with Mild Cognitive Impairment	Ageing
Nicole Bartlebaugh	Prevalence of Cognitive Impairment Among Adults with Low Vision Receiving Home Health Services	Ageing
Stijn De Baets	Stimulate the autonomy of vulnerable people at home by implementing Occupational Therapy in primary care, results from project SIMONE.	Ageing
Marjolaine Fraty	Impacts et enjeux des programmes de prévention primaire des risques liés au vieillissement physiologique de la population : une revue de la littérature	Ageing
Namrata Grampurohit	Functional Outcome Measure for Occupational Therapy for Adults with Intellectual Disability and Dementia	Ageing
Rachel Logue	Hands and Health at Home: Improving hand function in older adults using an intergenerational approach	Ageing
Selena Washington	An evaluation of race and fear of falling among black older adults within the United States	Ageing
Megan Chang	Relationships between Sensory Processing Patterns and Emotional Distress on Sleep in Older Adults	Ageing
Claudia Valente Santos	Promoting Happiness in Covid-19 times: Occupational therapy assistance to older adults via Telehealth	Ageing
Alia Osman	Use of The Disability Assessment for Dementia and Other Daily Living and Social Participation Assessment Tools among Occupational Therapists Working with Older Adults with Alzheimer's Disease and Related Disorders	Ageing
Samuel Turcotte	L'engagement d'aînés à titre de pairs-éducateurs en promotion de la santé : une occupation signifiante et favorisant un vieillissement actif	Ageing
Cristina Mendoza Holgado	Gender disparities among cognitive reserve profile in mild cognitive impairment (MCI).	Ageing

Jordan Goldberg	Revolutionizing everyday routines, such as walking, to maximize spontaneous activity and improve wellbeing among residents living in long-term aged care facilities – a scoping review	Ageing
Jesus Trinidad Lopez	Remote occupational therapy program for older adults "Vida Significativa": Promoting meaningful participation	Ageing
Muhammed YAZICI	Exploring Sensory Processing Patterns and Their Relationship With Fear of Fall and Neglect Syndrome in People After Stroke	Ageing
Deirdre Dawson	Virtual R-Evolution: The experience of transferring from in-person to virtual intervention among community dwelling older adults.	Ageing
Lindy Clemson	Comparison of a group-delivered and individually delivered Lifestyle-integrated Functional Exercise (LiFE) program in older persons: a randomized noninferiority trial	Ageing
Tanaka Sawako	Survey of awareness of community residents regarding the community life of persons with disability in Nicaragua	Community development
Bill Wong	Virtual TEDx Events- Why Should OT Students and Practitioners Take Part in Organizing?	Community development
Beth Pfeiffer	Initial Evaluation of a Public Transportation Intervention Program for Individuals with Developmental Disabilities	Community development
Tamami Aida	Effectiveness of promoting support for people in the Tokyo area with cognitive impairment after acquired brain injury	Community development
Laura Irvine-Brown	Employing critical praxis to practice the revolutionary occupational therapy we espouse: A dialogical exploration with Australian occupational therapists	Community development
Natalie Pickering	Occupational therapists in art-based social enterprises: An opportunity for strategic innovation?	Community development
